To Our Cascade Fresh Customers:

Recently there have been peanut butter and peanut paste recalls in the United States due to Salmonella contamination.

Cascade Fresh has checked with our supplier and determined that none of the peanuts used in our Cascade Fresh Organic Activ8 Probiotic Crunch Bars come from Peanut Corporation of America (PCA).

Our supplier has reassured us that all their peanut products are tested constantly for Salmonella and several other potential microbial pathogens. During the manufacturing process samples are drawn and sent to an outside laboratory at least twice a day.

Our supplier is a NACCP compliant food manufacturing facility and as such, believes and takes pride in the fact that they manufacture peanut products to the highest possible quality standards.

If you have any questions please feel free to call us.

Thank you,

Andrea Khalsa
Chief Financial Officer
Cascade Fresh Inc
